GOD IS LOVE AND NOTHING ELSE

—PRAISE THE LORD.

Tupelo, Miss., May 4, 1887.

(Continued From Last Issue.)

Tupelo stands on historic ground. Three hundred and fifty years ago De Soto wintered within a few miles of this village and had his army terribly crippled in a bloody conflict with the Chickasaw Indians, who possessed this region of country in ancient days. The outlines of his entrenched camp are yet visible, near Pontotoc, in the adjoining county, and innumerable relics have been exhumed from time to time to enrich collections, public and private.

In fact the plough still turns up every spring these Indian relics. Only yesterday I saw a lot, dug up this week, full of antiquarian interest. A large silver medal, in weight two dollars, with the effigy of Carlos III, King of Spain on one side and the words "il merito" on the reverse, surrounded by a wreath, marked this and the other relics as once belonging to an Indian chief. There were brass rings for neck and arms, about the thickness of telegraph wire; a nest pipe of "Powhatan clay," known to lovers of "the weed," silver ornaments made to be suspended from the neck ring; and other articles of curious construction, the use of which was conjectured.

The Chickasaws, most intelligent and thrifty of all the tribes once inhabiting this region, held this country from earliest times and their selection of it showed their wisdom and foresight. South of this extends a broad belt of prairie country, fertile and well watered, which gave unlimited grazing for their ponies, as well as a splendid range for game. Around this and to the north grand oak forests and undulating ground gave them admirable sites for villages, where the cover was good, and means of palisade defense close at hand.

In their great battle with De Soto they attacked him in his entrenchments, opposing their naked bodies and war clubs to veteran warriors, clad in armor, and using muskets and mailed horsemen, wielding dreadful lances with a terrible skill. The savages only possessed the advantage of numbers. They were finally repulsed, but De Soto lost 49 of his brave men; 50 horses and his stores, burned in the houses prepared for them and fired by the burning arrows that the Indians discharged into the thatched roofs.

Eighteen miles from Tupelo, Forest almost annihilated Sturgis in the battle of Tishomingo Creek, in Confederate war days; and two miles away the battle of Harrisburg was fought, the tide of war surging through this village, where some sharp fighting occurred. Our host was in it. Everybody, nearly, in Mississippi is an old Confederate soldier, whose age is enough to put him above boyhood when the struggle occurred.

The meeting is very promising. First, we are in a church, where even those who never go to church seem disposed to come. The pastor helps us all he can and attends every service, listening patiently; sometimes approvingly, always patiently. God bless him for this—so rare a spectacle among my friends, the clergy. Second, the people seem resolved to hear for themselves, and not judge from hearsay. Another admirable feature, of some rarity, in a whole community. We have splendid congregations. The village is pretty; partly built on undulating ground; partly on the flat, that stretches away to the south.

It is a wondrous place for artesian wells. Go 300 feet and you strike, apparently, a limitless supply of water. Two men can bore an artesian in a month. I never saw or heard the like. I wish you could only see the anger they bore with. No horse, no mule. The men just tramp round and turn the auger. No dropping or drilling. A simple auger bore. And two great strata of rotten limestone, one 70 feet thick, to go through. Two men do it all. Beat that if you can! I recall still with some feeling how I paid \$2 a foot for a drilling operation at the Pink Cottage, when I was practicing Holomon on a very small scale; and how I kept two men and two horses nearly the whole summer, until my barn lot was empty, my corn crib exhausted and the doleful thud of the drill, as the old horse walked around his appointed circle, used to say in its hollow, dolorous way, every time it dropped, "two dollars a foot, two dollars a foot," till I thought I should go mad. It ended in three 80-foot holes; an exhausted exchequer; a satisfied contractor and no water. "Vanitas vanitatum." I thought of my Pink Cottage excavations as I saw an artesian, bored by two men in less than a month, discharging 45 gallons of pure, sweet water to the minute. Delicious for drinking.

Beside the Mobile & Ohio railroad there crosses at Tupelo the Kansas City, Memphis & Birmingham. It is to be finished by fall. The people here are dreaming of a boom, too, and property is creeping up in price.

As I write the rain has begun to pour in torrents. It has threatened for several days and here it is.

Mr. Frank Mathews is an old friend, who married Miss Alice Hicks, daughter of Mr. Sim Hicks, once of Stanford, now of Somerset. She has just gone to Kentucky on a visit to her parents. Frank is our kind friend. Mr. Ralph Green is the brother of a gentleman of the same name, whom we met in Carrollton and with whom we were acquainted before we saw him. Also our very good friend, Capt. Glover and wife are two others, of whom we are proud. He is supervising engineer of the Kansas City, Mobile & Birmingham. She is a niece of Mrs. Judge Sautley, of Stanford. Ever in Jesus, GEO. O. BARNES.

CRAB ORCHARD, LINCOLN COUNTY.

—Mr. Bowen Gover has rented the livery stable at the Springs for this season.

—The case between Mrs. Sue Holmes and Mr. McHolmes has been decided in her favor.

—Dr. E. T. Stephenson's physicians at Cincinnati have written his father that he is improving some.

—Our trustees have posted bills to the effect that those who sell anything here on Sundays will be fined \$2.50.

—A great deal of disappointment and worry was occasioned here last Friday because your paper failed to arrive, Mr. Editor.

—Mr. E. W. Jones has opened up his soda fountain and we know the soda water is delightful and refreshing, for we were treated to it several evenings ago.

—Will not our town officers attend to having the fence around the old graveyard repaired? It is a shame to let stock make a pasture of it as they are now doing and tramping down the graves that are not fenced in.

—NOTICE.—All who all indebted to me will please call and settle, as I need the money and must have it. All accounts not settled by the 1st of June will be placed in an officer's hands for collection. Mrs. Fannie Edmiston.

—Mr. Hunley Singleton is very low with dropsy and the doctors think there is no hope of his recovery. Mrs. D. B. Edmiston is suffering from an attack of measles. Miss Louana James has been quite sick but is better now. Mr. Pate King and Miss Jennie Hutchinson are on the sick list also.

—The following is the programme for the closing exercises of the College: Examination of classes from June 13th to 15th; commencement exercises the night of the 16th; commencement sermon Sunday morning, 19th, by Dr. I. S. Walker, of Lexington; and on Sunday night a lecture by him; subject, "Creeping, or the Coming Woman."

—Mr. S. B. Pennington says he is the happiest man on earth. After using morphine for 14 years he suddenly determined to quit it, and after walking the floor for 8 days and nights, with untold suffering, finally succeeded. He says he feels like one who has been in a dark dungeon for that length of time and has suddenly gotten out into the sunshine, and that nothing can ever induce him to touch it again. After suffering as he has, he has proven that he has quit it by taking his hypodermic syringe and morphine and giving them to Mr. E. W. Jones, the druggist.

—Mr. and Mrs. R. G. Ward, of Paint Lick, are visiting his father's family. Mr. John Baugh, a handsome widower from Highland, was to see Miss Kate Davis Sunday. Mr. Sam Kennedy, now of Paris, Tennessee, spent several days last week with the folks at home. Mrs. Ellen McRoberts, of Stanford, is the guest of Mrs. Dr. Doores. Mrs. Bettie Frith, of Brodhead, has been visiting relatives here. Mr. and Mrs. Jim Magee have gone into the country to board with Mrs. Robert Collier. Mrs. J. H. Hutchings and Mrs. J. W. James attended the Baptist convention in Louisville. Mr. Simon Gormley, of Lexington, is the guest of his mother.

Kentucky is taking a sharp share in the boom that is just now shaking up the Sunny South. Lexington, Frankfort, Lagrange, Louisville, Meade and Breckenridge counties, Glasgow, Bowling Green and Burkeville are red hot after gas. Coal and iron are stirring Eastern Kentucky, and the same agencies are doing a like work for the Green River country. Politics is heavily buttered with evidences of material progress in resource developments, and the press is teeming with display headlines backed up by strong articles showing the trend of public sentiments. It really seems Kentucky is on her way to rapid development and a bright future. Nature has been lavish in her gifts, and the State only needs the generous aid of its people to accomplish a great work.—[Frankfort Capitalist.]

It is reported from Eaku that a gigantic oil spring burst forth there on the 22d of March, carrying up oil, sand and large stones to a height of 350 feet. It overran several reservoirs prepared for it and after forming an extensive petroleum lake, forced its way into the sea.

MT. VERNON, ROCKCASTLE COUNTY.

—The I. J. came in ahead of time Tuesday morning.

—Mrs. James Berry, of Clear Creek, this county, died Saturday.

—Josh Boring says the republicans will carry the convention this time, he reckons.

—The photograph gallery man has arrived and will make pictures above Parrie's store next week.

—House cleaning time has arrived and the men folks generally make themselves scarce while the good work is going on.

—Many of our people would be pleased to know when Mr. Barnes will return to Kentucky and if he will again visit the mountains.

—Shannahan & Co., have opened a new quarry above Longford, on the K. C., to get stone for the new Covington bridge and will work 100 men.

—F. L. Thompson, while at the State convention, purchased a big stock of everything in the merchandise line and will sell at prices that will surprise the natives.

—When in the city last week on an invitation from the Times office a number of the mountain boys went around to that institution to see them go to press. All were much pleased with their visit.

—The worst cripple we have seen for a long time is an old man who stopped off here Tuesday from some point in Tennessee on his way to Louisville. He was bent nearly double with rheumatism; his head was but two feet above the ground and he almost crawled with the aid of two walking sticks.

—In a visit to our cemetery Sunday evening we were surprised at the number of graves that yet remain unmarked by tombstones. In one or two instances we are told of persons who lie buried there, of their having before death set aside a sufficient amount to cover burial and tombstone expenses, yet their graves are neglected and allowed to be overrun with weeds and briars, while their children and relatives, who should take more pride in the graves of their dead, are putting off from time to time a duty they should have attended to long ago. This is not as it should be.

—M. J. Miller is visiting his son, T. S. Miller, in Garrard. The great and only Jim Dick Chandler was here Saturday. Thompson's "to Bacco" clerk is a rattling scribe. Call on him for diagram. Mr. John Pearl, formerly of the Leader, now running as mail agent on the C. S., was up to see his family at London the latter part of the week. Hon. J. K. McClary, who has been afflicted with rheumatism for the last two years, is still confined to his room and does not seem to improve. Melvin Wallen is down with the measles, that epidemic which is still raging in this county. C. J. Gaudin is in from the C. S. for a few days visit to his family. W. M. Fish, James I. White and Dr. Jennings represented the g. o. p. of Rockcastle at the republican convention in Louisville this week.

OBITUARY.

Died at his residence near Bloomfield, Nelson county, on the 5th inst., Dr. Francis S. Read, in the 77th year of his age. Dr. Read was born and grew to manhood in Stanford. His father, Francis S. Read, Sr., being one of the earliest inhabitants of the place, resided on the lot now occupied by the Christian church and for many years carried on the mercantile business in a house built by himself where the store house of S. H. Shanks now stands. Dr. Read was once very well known to the citizens of Lincoln county, having practiced his profession for a time at Crab Orchard and for a good many years at Hustonville. He was a well educated physician and quite popular and successful in his profession. His death will be sincerely regretted by many of our older citizens who well remember him as a man of most agreeable social qualities as well as a very valuable man professionally. Among his kindred in this county are Mr. John Blain and Mrs. J. B. Green, his nephew and niece, and Messrs. John M. Samuel and William Reid, his brothers-in-law.

There is now in New York a lady who whistles at private entertainments, but for a consideration. She gets \$25 a night for whistling in New York drawing rooms, and is said to have all the engagements she wants. The husband of this lady was well off at one time, but he lost his money. Whistling was her great accomplishment and when she heard that this gift could be turned to pecuniary account she saw no reason why she should not aid her husband by her gift in this line, and she has succeeded beyond her expectations.

More bridge work is projected at this date than ever in the history of the country. Two are projected across the Hudson, six across the Mississippi, two across the Missouri, a \$10,000,000 bridge across the Potomac, 4,660 feet long, besides a multitude of smaller bridges. The bridge works are constantly overrun with work, and bridge iron makers are unable to accept all the business offered. Four bridge building works are projected, and an expansion of mill capacity is going on.

It is admitted by most workmen that the best method of tempering many kinds of tools, especially drills, is to force the implement when at a cherry red heat into a bar of lead.

MT. SALEM, LINCOLN COUNTY.

—Business is very brisk at this place now. Messrs. W. T. Richards & Co., with G. G. Fair as head salesman, are doing up things in a lively manner.

—Mr. G. W. Gadberry's barn, near Phil Casey county, was burned on last Sunday and 60 barrels of corn, hay and farming implements were consumed. It caught from a lighted pipe.

—At an election held at this place on last Saturday for the purpose of electing officers for the Hustonville and Coffey's Mill Turnpike Road Co., G. C. Lyon was re-elected president, T. C. Jasper treasurer, and Cicero Reynolds secretary.

—From an extensive roaming over a large portion of Casey and part of Lincoln counties for some days, we found most farmers about finishing planting corn and every thing lively and flourishing. We heard some grumbling on account of much rain. Those inclined to creak ought to be in other sections awhile which are subject to floods and droughts and they would soon be reconciled to the distribution of rain in this State.

—Near Ray's mill last Sunday on a visit to his relative, Mr. John Moore, we met the venerable William Moore, who lives on the border of Pulaski county, some 13 miles distant, he having rode that distance on horseback. Mr. Moore was in the war of 1812 and is now in his 93rd year. Taught age has been telling fast upon him for the last few years, he bids fair to become a centenarian. By thrift and good management he has accumulated enough to go the balance of life's journey with ease and comfort. A very few years ago he was hale and robust.

—Since the death of C. E. Simpson, an account of which we reported from Yosemite a few days since, strange developments have been made. From certain actions and expressions of his while on his periodical spells we have been convinced and perhaps others the same, that some secret sorrow was ever brooding on his mind and that by some means or other his life had been blasted. It has come to light that in a distant State years ago he had a wife and several children, and that he became involved in a difficulty in which he killed a man and had to flee to escape the penalties of the law. It appears, too, that all the years he was among us he was living under an assumed name, his real name being Charles S. Elder. We forbear to write further until acquainted with authentic details, as there are some contradictions in the various rumors, and we do not wish to do injustice to either the living or dead.

Queen Victoria's salary is \$355,000, or about \$1,900,000 per year. On June 21st she will have drawn that salary for 50 years, or about \$96,000,000. This sum is simply what is paid to the Queen, exclusive of what the members of the royal family and their establishments have received. During the same time the total sum paid to all of our Presidents has only amounted to \$1,625,000.

George Williams and Ebenezer Green, both colored, ate hard boiled egg the other night in Chicago on a bet of \$10. The rules compelled the contestants to shell their own eggs and eat them without the assistance of liquid in any form. Green stopped on his 17th egg and Williams won, eating 18 in 24 minutes.

An Ohio farmer owns a hen which, it is claimed, makes a regular business of laying big eggs. One of them the owner left at the office of the Barnesville Republican, last Saturday, that measured six and three fourths by eight inches and weighed nearly four ounces. The shell was rather dark and quite rough.

WITH SUPPLEMENT

DEMOCRATIC TICKET.

FOR GOVERNOR—SIMON BOLIVAR BUCKNER, of Hart County.
 LIEUTENANT GOVERNOR—JAMES W. BRYAN, of Kenton county.
 ATTORNEY GENERAL—P. W. HARDIN, of Mercer county.
 AUDITOR—FAYETTE HEWITT, of Hardin county.
 TREASURER—JAMES W. TATE, of Woodford county.
 SUPERINTENDENT OF PUBLIC INSTRUCTION—JOSEPH DESHA PICKETT, of Fayette county.
 REGISTER OF THE LAND OFFICE—THOMAS H. CORBETT, of McCracken county.
 LEGISLATURE—Dr. J. D. FETTER, of Lincoln county.

The Louisville Times makes this earnest plea for organization which those entrusted with its duties would do well to consider and heed. There is little doubt that Gen. Buckner would be elected without an organization, but if his election is to mean anything it must be by a majority that is decisive, and to achieve such a majority the democratic committee must go to work at once, open correspondence with every democrat in the State of local prominence, disseminate democratic newspapers that advocate our principles, send forth democratic orators to create democratic enthusiasm and bring out the vote on the day of election, and have a complete and full poll of the vote before the election. It would not be necessary to do this if this campaign was a Kentucky campaign only, but it is far more; it is the beginning of the national campaign of next year, the first charge of 1888, and it must carry democratization and terror to the ranks of the enemy. Democratic principles are immortal. They will prevail in the future even though they go down next year. The old party has danced on the graves of many of its enemies. It buried Federalism more than four score years ago. It buried Whiggism more than a third of a century ago. It buried anti-Masonry in 1828. It buried Know Nothingism in 1856. It struck republicanism a blow almost fatal in 1854, and will bury that party in 1888, if Kentucky but does her duty this year. Then for prohibition or any other heresy that may come in the future democracy will be ready. Advance the banner and let democracy, like Gideon's band, keep her eye upon the enemy, even when taking needed refreshment.

SOME of our exchanges, we regret to notice, are disposed to make sport of our Billy Bradley's short legs and say that he can never hope to win a race with them. This is all wrong. Our esteemed friend does not expect to win and it is cruel to remind him that he stands no more chance in a race than a puddle duck. And besides we have it from good authority that the colonel didn't make those legs, or he would have constructed them in a more shapely manner.

If Judge Morrow were as mean looking as the Times' picture makes him, we would feel it our duty, as much as we like him, to take a stick and end his miserable existence. If there ever was a case in which a prosecution for criminal libel would lie, Judge Morrow has it against Emmett Logan and we shall cease to be his advocate and defender if he does not seek to protect his handsome phiz from such caricatures.

WOMAN suffrage gets a set-back in Pennsylvania, the bill favoring it having been killed by the legislature. The dear creatures will therefore not vote this year. Perhaps another year they may. But no genuine woman wants to vote. It is only the short-haired, flat-breasted, would-be men of the sex who hanker for the privilege.

THE Danville Advocate has stuck to it for two issues that "Tom Corbin" is the democratic nominee for register of the land office. We think there must be some mistake about this, but as Bro. Marrs was at the convention and is a strict temperance man, we will not dispute the point with him.

THE Monticello Signal will excuse us for the reference in our last paper. We did not observe till later that it had doffed its patent inside and of course did not look there for the missing locals. The improvement in the paper is very decided and we congratulate Bro. Thompson.

THE "nigger" was as usual ignored by the republicans in making up their ticket. When we consider that the colored population furnishes most of the votes, this is pretty shabby treatment, to say the least, and one against which the "dumb driven cattle" ought to rebel.

COL. McCARTY, Gov. Knott's assistant Secretary of State, has thrown a damper upon the aspirants to that office by stating that it has not paid him over \$3,000 a year. It has generally been thought to pay about \$10,000.

SQUIRE STOFER has been arrested and is now on trial for releasing Cornelison. If he gets his deserts he will serve a longer sentence than the friend he studied himself to release.

Not a single note of dissatisfaction against the democratic ticket comes from any quarter. It is an admirable one and is good for at least 40,000 majority.

—Miss Jennie Bowman, the victim of the Louisville tragedy, two weeks ago so horrified the city, died at 9:15 Monday evening.

JUDGE MORROW called the republican convention to order at Louisville Wednesday and indulged in the usual speech that one of his party is expected to make. Logan McKee was then made temporary chairman, which doubtful honor made the distinguished gentleman from Boyle "so happy as never was." He too indulged in a speech. He then appointed the usual committees and the meeting dissolved till 4 o'clock. Curtis F. Barnam was nominated for permanent chairman by the committee on reassembling and he was chosen. He made him a little speech also. The platform condemns the democratic party; favors Federal aid to education; approves an "adjusted" tariff; favors national internal improvements of rivers, etc.; condemns the veto by President Cleveland of the pauper pension bill; holds out a bait to the working-man and expresses sympathy with Ireland. The temperance question was ignored. W. O. Bradley was nominated for governor; Matt O'Doherty, lieutenant governor; Hon. John Feland, attorney general; R. D. Davis, auditor; Captain J. R. Par-year, treasurer; Rev. William H. Childers, superintendent of public instruction; Thos. J. Tinsley, register of the land office; and then at 12:45 yesterday morning the powder scattered. Now, by St. Nicholas, let the music begin.

THE Courier Journal has a faithful employee in the person of John M. Bennett, the excellent foreman of the news composing rooms. He has been with it about a quarter of a century and next to Mr. Haldeman himself, his word is supreme law in the establishment. He was telling us the other night, when we called after 12 o'clock, about the wonderful growth of the mechanical department of the paper in the last few years. Less than ten years ago he would have to have notice a week ahead if a supplement had to be sent out on Sunday; now he gets out a 20 page paper with less than a half day's notice. He also tells us that Mr. Haldeman has ordered three new presses, the finest in the country, for delivery next September, when the size of the paper will be increased a column to the page and 2½ inches added to the length. We are indebted to Mr. Bennett for much useful knowledge in the printing business, that will be of value to us.

Sara claims that Lewis remains in the house only to torment her and to quarrel with and drive other boarders in order to prevent her from making a living. John Jackson has been one of the boarders for months past and on Sunday Lewis called him a son of a female dog so often that Jackson knocked him down a couple of times, Louis following Jackson up in order to be knocked down the 21 time. Louis had Jackson arrested and carried before County Judge Lee who fined Jackson \$20. He didn't have the money to pay his fine and is now in the work-house. Louis charges Sara with being too intimate with Jackson. Jackson says it isn't so; Sara says it isn't so; nobody said so or intimated so on the trial but Louis. After using the Smoke Ball two months writes as follows: YELLEVILLE, ARK., Jan. 17, 1887.
 CARBOLIC SMOKE BALL COMPANY: I have tested your medicine and can truthfully say this: I have practiced medicine for thirty years, and your Carbolic Smoke Ball relieves Catarrh, Asthma, Neuralgia, Croup and Bronchitis more readily than any preparation; and I will say further, that no physician will or can prepare a remedy that will give relief as soon as the Carbolic Smoke Ball for the diseases named in your circular.

W. M. NOE, M. D.
 LOUISVILLE, Feb. 24.
 CARBOLIC SMOKE BALL COMPANY—Gentlemen: I have been a sufferer from Catarrh for eight years; the symptoms were a fullness about the head, frequently followed with Neuralgic pains. Have tried numerous remedies without receiving any benefit. A friend induced me to try the Smoke Ball. I believe the Smoke Ball the only Catarrh cure, and cheerfully recommend it to all sufferers from Catarrh. I am satisfied if used properly it will effect a permanent cure.

Respectfully,
 E. M. HOOE,
 With Stratton & Teretogge.
 The Attorney-General of Tennessee says:
 After suffering with Catarrh for fifteen years and spending a great deal of money for remedies, I unhesitatingly pronounce your Carbolic Smoke Ball the best I have ever used. It is the only remedy I ever saw that I believe will cure Catarrh, and I warmly recommend it to every sufferer.

LILLARD THOMPSON, Lebanon, Tenn.
 The complete treatment includes a Debeltator package, which should be used in all chronic cases as a Constitutional Treatment, is then necessary. One Smoke Ball contains between 500 and 400 doses. Price \$2, Debeltator \$1.

DEMOCRATIC TICKET.

FOR GOVERNOR—SIMON BOLIVAR BUCKNER, of Hart County.
 LIEUTENANT GOVERNOR—JAMES W. BRYAN, of Kenton county.
 ATTORNEY GENERAL—P. W. HARDIN, of Mercer county.
 AUDITOR—FAYETTE HEWITT, of Hardin county.
 TREASURER—JAMES W. TATE, of Woodford county.
 SUPERINTENDENT OF PUBLIC INSTRUCTION—JOSEPH DESHA PICKETT, of Fayette county.
 REGISTER OF THE LAND OFFICE—THOMAS H. CORBETT, of McCracken county.
 LEGISLATURE—DR. J. D. PETTUS, Lincoln county.

THE Louisville Times makes this earnest plea for organization which those entrusted with its duties would do well to consider and heed. There is little doubt that Gen. Buckner would be elected without an organization, but if his election is to mean anything it must be by a majority that is decisive, and to achieve such a majority the democratic committee must go to work at once, open correspondence with every democrat in the State of local prominence, disseminate democratic newspapers that advocate our principles, send forth democratic orators to create democratic enthusiasm and bring out the vote on the day of election, and have a complete and full poll of the vote before the election. It would not be necessary to do this if this campaign was a Kentucky campaign only, but it is far more; it is the beginning of the national campaign of next year, the first charge of 1888, and it must carry demoralization and terror to the ranks of the enemy. Democratic principles are immortal. They will prevail in the future even though they go down next year. The old party has danced on the graves of many of its enemies. It buried Federalism more than four score years ago. It buried Whiggism more than a third of a century ago. It buried anti-Masonry in 1828. It buried Know Nothingism in 1856. It struck republicanism a blow almost fatal in 1854, and will bury that party in 1888, if Kentucky but does her duty this year. Then for prohibition or any other heresy that may come in the future democracy will be ready. Advance the banner and let democracy, like Gideon's band, keep her eye upon the enemy, even when taking needed refreshment.

SOME of our exchanges, we regret to notice, are disposed to make sport of our Billy Bradley's short legs and say that he can never hope to win a race with them. This is all wrong. Our esteemed friend does not expect to win and it is cruel to remind him that he stands no more chance in a race than a puddle duck. And besides we have it from good authority that the colonel didn't make those legs, or he would have constructed them in a more shapely manner.

If Judge Morrow was as mean looking as the Times' picture makes him, we would feel it our duty, as much as we like him, to take a stick and end his miserable existence. If there ever was a case in which a prosecution for criminal libel would lie, Judge Morrow has it against Emmett Logan and we shall cease to be his advocate and defender if he does not seek to protect his handsome phiz from such caricatures.

WOMAN SUFFRAGE gets a set-back in Pennsylvania, the bill favoring it having been killed by the legislature. The dear creature will therefore not vote this year. Perhaps another year they may. But no genuine woman wants to vote. It is only the short haired, flat breasted, would-be men of the sex who hanker for the privilege.

THE Danville Advocate has stuck to it for two issues that "Tom Corbin" is the democratic nominee for register of the land office. We think there must be some mistake about this, but as Bro. Marrs was at the convention and is a strict temperance man, we will not dispute the point with him.

THE Monticello Signal will excuse us for the reference in our last paper. We did not observe till later that it had doffed its patent inside and of course did not look there for the missing locals. The improvement in the paper is very decided and we congratulate Bro. Thompson.

THE "nigger" was as usual ignored by the republicans in making up their ticket. When we consider that the colored population furnishes most of the votes, this is pretty shabby treatment, to say the least, and one against which the "dumb driven cattle" ought to rebel.

COL. McCARTY, Gov. Knott's assistant Secretary of State, has thrown a damper upon the aspirants to that office by stating that it has not paid him over \$3,000 a year. It has generally been thought to pay about \$10,000.

SQUIRE STOFER has been arrested and is now on trial for releasing Cornelison. If he gets his deserts he will serve a longer sentence than the friend he stupefied himself to release.

Not a single note of dissatisfaction against the democratic ticket comes from any quarter. It is an admirable one and is good for at least 40,000 majority.

—Miss Jennie Bowman, the victim of the Louisville tragedy, which two weeks ago so horrified the city, died at 9:15 Monday evening.

JUDGE MORROW called the republican convention to order at Louisville Wednesday and indulged in the usual speech that one of his party is expected to make. Logan McKee was then made temporary chairman, which doubtful honor made the distinguished gentleman from Boyle "so happy as never was." He too indulged in a speech. He then appointed the usual committees and the meeting dissolved till 4 o'clock. Curtis F. Barnum was nominated for permanent chairman by the committee on reassembling and he was chosen. He made him a little speech also. The platform condemns the democratic party; favors Federal aid to education; approves an "adjusted" tariff; favors national internal improvements of rivers, etc.; condemns the veto by President Cleveland of the paper pension bill; holds out a bait to the working-man and expresses sympathy with Ireland. The temperance question was ignored. W. O. Bradley was nominated for governor; Matt O'Doherty, lieutenant governor; Hon. John Feland, attorney general; R. D. Davis, auditor; Captain J. R. Puryear, treasurer; Rev. William H. Childers, superintendent of public instruction; Thos. J. Tinsley, register of the land office; and then at 12:45 yesterday morning the pow-wow scattered. Now, by St. Nicholas, let the music begin.

THE Courier Journal has a faithful employee in the person of John M. Bennett, the excellent foreman of the news composing rooms. He has been with it about a quarter of a century and next to Mr. Haldeman himself, his word is supreme law in the establishment. He was telling us the other night, when we called after 12 o'clock, about the wonderful growth of the mechanical department of the paper in the last few years. Less than ten years ago he would have to have notice a week ahead if a supplement had to be sent out on Sunday; now he gets out a 20 page paper with less than a half day's notice. He also tells us that Mr. Haldeman has ordered three new presses, the finest in the country, for delivery next September, when the size of the paper will be increased a column to the page and 2½ inches added to the length. We are indebted to Mr. Bennett for much useful knowledge in the printing business, that will be of value to us.

Louis charges Sara with being too intimate with Jackson. Jackson says it isn't so; Sara says it isn't so; nobody said so or intimated so on the trial but Louis. Louis is a home nigger; Jackson is a strange nigger, a plasterer by trade and an indurcious fellow. He came here from Lawrenceburg and Frankfort. Louis was jealous of Archie Denny a few weeks ago. Sara says his jealousy was unfounded in that case also; so does Archie's.

YELLEVILLE, ARK., Jan. 17, 1887.
 CARBOLIC SMOKE BALL COMPANY: I have tested your medicine and can truthfully say this: I have practiced medicine for thirty years, and your Carbolic Smoke Ball relieves Catarrh, Asthma, Neuralgia, Croup and Bronchitis more readily than any preparation; and I will say further, that no physician will or can prepare a remedy that will give relief as soon as the Carbolic Smoke Ball for the diseases named in your circular.

W. M. NOE, M. D.
 LOUISVILLE, Feb. 24.
 CARBOLIC SMOKE BALL COMPANY—Gentlemen: I have been a sufferer from Catarrh for eight years; the symptoms were a fullness about the head, frequently followed with Neuralgic pains. Have tried numerous remedies without receiving any benefit. A friend induced me to try the Smoke Ball. Treatment has been attended by most satisfactory results. I believe the Smoke Ball the only Catarrh cure, and cheerfully recommend it to all sufferers from Catarrh. I am satisfied if used properly it will effect a permanent cure.

Respectfully,
 E. M. HOOE,
 With Stratton & Terstege.

The Attorney-General of Tennessee says:
 After suffering with Catarrh for fifteen years and spending a great deal of money for remedies, I unhesitatingly pronounce your Carbolic Smoke Ball the best I have ever used. It is the only remedy I ever saw that I believe will cure Catarrh, and I warmly recommend it to every sufferer.

The complete treatment includes a Debeltator package, which should be used in all chronic cases as a Constitutional Treatment, is then necessary. One Smoke Ball contains between 300 and 400 doses.

WITH SUPPLEMENT

DEMOCRATIC TICKET.

FOR GOVERNOR—SIMON BOLIVAR BUCKNER, of Hart County.
 LIEUTENANT GOVERNOR—JAMES W. BRYAN, of Kenton county.
 ATTORNEY GENERAL—P. W. HARDIN, of Mercer county.
 AUDITOR—FAYETTE HEWITT, of Hardin county.
 TREASURER—JAMES W. TATE, of Woodford county.
 SUPERINTENDENT OF PUBLIC INSTRUCTION—JOSEPH DESHA PICKETT, of Fayette county.
 REGISTER OF THE LAND OFFICE—THOMAS H. CORBETT, of McCracken county.
 LEGISLATURE—Dr. J. D. FETUS, Lincoln county.

THE Louisville Times makes this earnest plea for organization which those entrusted with its duties would do well to consider and heed. There is little doubt that Gen. Buckner would be elected without an organization, but if his election is to mean anything it must be by a majority that is decisive, and to achieve such a majority the democratic committee must go to work at once, open correspondence with every democrat in the State of local prominence, disseminate democratic newspapers that advocate our principles, send forth democratic orators to create democratic enthusiasm and bring out the vote on the day of election, and have a complete and full poll of the vote before the election. It would not be necessary to do this if this campaign was a Kentucky campaign only, but it is far more; it is the beginning of the national campaign of next year, the first charge of 1888, and it must carry democratization and terror to the ranks of the enemy. Democratic principles are immortal. They will prevail in the future even though they go down next year. The old party has danced on the graves of many of its enemies. It buried Federalism more than four score years ago. It buried Whiggism more than a third of a century ago. It buried anti-Masonry in 1828. It buried Know Nothingism in 1855. It struck republicanism a blow almost fatal in 1854, and will bury that party in 1888, if Kentucky but does her duty this year. Then for prohibition or any other heresy that may come in the future democracy will be ready. Advance the banner and let democracy, like Gideon's band, keep her eye upon the enemy, even when taking needed refreshment.

SOME of our exchanges, we regret to notice, are disposed to make sport of our Billy Bradley's short legs and say that he can never hope to win a race with them. This is all wrong. Our esteemed friend does not expect to win and it is cruel to remind him that he stands no more chance in a race than a puddle duck. And besides we have it from good authority that the colonel didn't make those legs, or he would have constructed them in a more shapely manner.

If Judge Morrow were as mean looking as the Times picture makes him, we would feel it our duty, as much as we like him, to take a stick and end his miserable existence. If there ever was a case in which a prosecution for criminal libel would lie, Judge Morrow has it against Emmett Logan and we shall cease to be his advocate and defender if he does not seek to protect his handsome phiz from such caricatures.

WOMAN suffrage gets a set-back in Pennsylvania, the bill favoring it having been killed by the legislature. The dear creatures will therefore not vote this year. Perhaps another year they may. But no genuine woman wants to vote. It is only the short-haired, flat-breasted, would-be men of the sex who hanker for the privilege.

THE Danville Advocate has stuck to it for two issues that "Tom Corbin" is the democratic nominee for register of the land office. We think there must be some mistake about this, but as Bro. Marre was at the convention and is a strict temperance man, we will not dispute the point with him.

THE Monticello Signal will excuse us for the reference in our last paper. We did not observe till later that it had defied its patent inside and of course did not look there for the missing locals. The improvement in the paper is very decided and we congratulate Bro. Thompson.

THE "nigger" was as usual ignored by the republicans in making up their ticket. When we consider that the colored population furnishes most of the votes, this is pretty shabby treatment, to say the least, and one against which the "dumb driven cattle" ought to rebel.

COL. McCARTY, Gov. Knott's assistant Secretary of State, has thrown a damper upon the aspirants to that office by stating that it has not paid him over \$3,000 a year. It has generally been thought to pay about \$10,000.

SQUIRE STOFER has been arrested and is now on trial for releasing Cernelson. If he gets his deserts he will serve a longer sentence than the friend he stultified himself to release.

Nor a single note of dissatisfaction against the democratic ticket comes from any quarter. It is an admirable one and is good for at least 40,000 majority.

—Miss Jennie Bowman, the victim of the Louisville tragedy, which two weeks ago so horrified the city, died at 9:15 Monday evening.

JUDGE MORROW called the republican convention to order at Louisville Wednesday and indulged in the usual speech that one of his party is expected to make. Logan McKee was then made temporary chairman, which doubtful honor made the distinguished gentleman from Boyle "so happy as never was." He too indulged in a speech. He then appointed the usual committees and the meeting dissolved till 4 o'clock. Curtis F. Burnam was nominated for permanent chairman by the committee on reassembling and he was chosen. He made him a little speech also. The platform condemns the democratic party; favors Federal aid to education; approves an "adjusted" tariff; favors national internal improvements of rivers, etc.; condemns the veto by President Cleveland of the paper pension bill; holds out a bait to the working-man and expresses sympathy with Ireland. The temperance question was ignored. W. O. Bradley was nominated for governor; Matt O'Doherty, lieutenant governor; Hon. John Feland, attorney general; R. D. Davis, auditor; Captain J. R. Puryear, treasurer; Rev. William H. Childers, superintendent of public instruction; Thos. J. Tinsley, register of the land office; and then at 12:45 yesterday morning the powder scattered. Now, by St. Nicholas, let the music begin.

THE Courier Journal has a faithful employee in the person of John M. Bennett, the excellent foreman of the news composing rooms. He has been with it about a quarter of a century and next to Mr. Haldeman himself, his word is supreme law in the establishment. He was telling us the other night, when we called after 12 o'clock, about the wonderful growth of the mechanical department of the paper in the last few years. Less than ten years ago he would have to have notice a week ahead if a supplement had to be sent out on Sunday; now he gets out a 20 page paper with less than a half day's notice. He also tells us that Mr. Haldeman has ordered three new presses, the finest in the country, for delivery next September, when the size of the paper will be increased a column to the page and 2 1/2 inches added to the length. We are indebted to Mr. Bennett for much useful knowledge in the printing business, that will be of value to us.

—The University of Pennsylvania has decided that from the opening of next session no cigarette smoking will be allowed by the students.

—The 14-year-old son of Miles Aden, a farmer near Ionia, Mich., shot and killed his sister, aged 12, and said, "She won't bother me any more."

—Cora Sullivan, daughter of a wealthy citizen of Montgomery county, Missouri, suicided with chloral. She left a note saying she was possessed of a devil.

—Dan Manning's new bank, the Western National, of New York, with ex Treasurer Jordan as vice-president, began business this week with \$3,500,000 capital.

—At Tarboro, North Carolina, a negro of 19, who had attempted to rape a young white girl, was taken from jail and hung on the spot where the assault was made.

—The burning of the "Oak Hill" Distillery in Fauquier county, Va., is reported. Two thousand gallons of whiskey, with engine and all fixtures, were destroyed.

—The list of claims against Madison county amount to \$10,926.79. The county judge is paid \$1,000, the attorney \$900 and the school commissioner, who is a lady, \$800.

—A gang of men engaged in cleaning out a furnace at Braddock's, Pa., were buried under a falling arch of red hot coke, lime stone and other materials, five of them being burned to death.

—The magistrates of Fayette have refused to allow a vote of the county to be taken on the question of voting money to the Kentucky Union railroad and the Lexingtonians are indignant indeed.

—Fanny Murray, a young girl of Stone-wall, Col., fell from a horse by her saddle turning. Her foot became fastened in the stirrup, and the frightened horse started on a run. She was found dead two miles away.

—Franklin Howell, a wealthy banker of Scranton, Pa., has been sued for breach of promise by a Pittsburg lady, who asks \$75,000. This is the second suit of the character in which Mr. Howell has been defendant in one year.

—J. Sel Miller's injuries received at the democratic convention are much more serious than were at first supposed. He was evidently hit in the eye with a loaded cane or club, and it is feared that he will lose the eye. It is also said he will lose the fat city office he holds.

—Fourteen people were killed or injured in a railroad wreck in Australia.

—Tom Crittenden, who murdered a negro four years ago, is at last on trial at Taylorsville.

—Great slides were torn from mountains, fissures opened in the earth, lakes swallowed up and new lakes created by the seismic disturbances in Arizona last week. Several volcanoes were witnessed.

—Chris Fraise, Clerk of the Hardin county Circuit Court, was ordered to jail for contempt by Judge McBeath. Fraise refused to testify against a man who was a friend in a whisky case. He weakened however after several hours' confinement and came to time.

—Col. Morrow began to quote scripture among the first things he said, and the delegates' mouths and eyes stretched in astonishment and wonder as to what he was talking about. —[Post. The Colonel is a straight laced Presbyterian and can preach as good as any of them when he's a mind to.

—Mrs. Eliza Baker and her mother-in-law, Mrs. Suzette McWha, living at Holliday's Cave, West Virginia, were found murdered in their sitting-room, their heads having been beaten to a jelly with a car coupling pin. The theory is that burglars entered the house and being seen and identified by the ladies, killed them.

—Evidence of woman's devotion are not lacking. Here's one among thousands: Levi Thomas, who was sent to the Michigan City (Ind.) prison for two years, was visited by his wife, who walked 200 miles to see him. She has engaged as a domestic in a family near the prison that she may be near him during his incarceration.

—Gov. Knott is scattering pardons right and left. He has just pardoned from the Frankfort penitentiary Delaney Perry, a young man who was sent up from Louisville about a year ago to serve two years for obtaining money under false pretenses. Perry swindled seven business firms in Louisville. —[Covington Commonwealth.

—Eastern Kentucky is now attracting attention throughout the United States. We are told that two special trains passed up last week laden with men bound for a prospecting tour through the mountain region. The wealth is there and from the amount of interest taken in it we may safely suppose that the time of its development is not far off. —[Mt. Sterling Sentinel-Democrat.

—In Boyd county Peter Tripp and Alexander Caldwell, well known farmers, last week quarreled about a fence, and parted, threatening to kill each other on sight. Both armed themselves and Tuesday evening met on the road near town and at once opened fire on each other. Tripp was instantly killed. Caldwell lived until Wednesday morning. It is believed that their sons will continue the feud.

GARRARD COUNTY DEPARTMENT.

Lancaster.

—A new boarder at the Hamilton House arrived on the 9th inst. His name is James Hamilton Hay; weight 8 pounds.

—Damsel Hickman, of color, got 20 days in the work-house in the police court on Monday for selling whisky without license.

—The colored delegates attending the republican convention from this place are Al Dunn, alias "Grand-daddy," Jas. Burdett, Lee Anderson and William Cook.

—Gen. W. J. Landrum goes to Covington on Friday to try the case of Sisk vs. the K. C. railroad before the U. S. Court. Sisk is the man who was killed by the railroad at this place a year ago.

—Sam Engleman went hunting on Monday; Sam Engleman went hunting on Tuesday; Sam Engleman went hunting on Wednesday; Sam Engleman went hunting on Thursday, &c., and so on.

—William Hamilton is the youngest butcher in town. He is only 10 years old, is a cripple, but is a hustler from away back. He can yell "fresh fish" with a vim equal to that of a city huckster. Bill is a good boy.

—The following delegates left on Tuesday for the republican convention at Louisville: Gen. W. J. Landrum, Geo. Denny, D. R. Collier, J. W. West, Hon. Wm. Berkele, John E. Stormes, Capt. W. J. Kinsaid and R. A. Burnside.

—From what we can learn the prohibition vote in this county will be pretty slim. Although local opinion carried here last fall by a good majority, it seems that the strongest advocates of the law are not going to forsake their respective parties. While this may look a little inconsistent, it is decidedly the best thing to do, by the democrats, at least, as a vote for Fox is a vote deliberately thrown away.

—On next Wednesday morning at the Christian church, Miss Lula Chaires, one of the loveliest and handsomest young ladies who ever walked our streets, will be married to Mr. Wm. Jones, of Savannah, Ga. The ceremony will be pronounced by Elder G. W. Yancey. If the groom is a man of as much discernment as his selection of a wife indicates, we predict for him a brilliant and successful career.

—Mrs. M. L. Granger and son Commodore have returned. They find a new and beautiful residence awaiting them. Mrs. Judge Owsley and Mrs. G. want to cin't it, Tuesday. Hugh M. Grant, the able correspondent of the Danville Advocate, is off on a fishing expedition. May the spirit of Isaac Walton attend him. George Coates, Esq., of Louisville, is visiting friends here.

Ed Bishop didn't name the winner of the Derby. He is a fraud. Col. John K. Faulkner, of Louisville, has been here greeting his many friends. Miss Beebe Adams is visiting at W. B. Mason's.

—There is no doubt but that the democrats of Garrard are overwhelmingly in favor of returning Mr. Beck to the Senate.

Said a prominent thinking man to me the other day: "Send Beck back, why certainly; where can you expect to find a man who is his equal? He is the recognized leader of the Senate, a true friend of the South, knows what we want, is always at his post, and is an honor to Kentucky. All this talk about retiring him is simply bosh. No sir, Mr. Beck should be kept in the Senate as long as he wants to stay there, and you may rest assured he will be."

—There have been fourteen additions to the Christian church during Bro. Frank's meeting. Besides these visible results the brethren have all been benefited. They have been strengthened in their beliefs, made resolves to be better men and women, to practice charity and tell of their brethren's virtues and not mention their faults and to use their time, talents and money to building up the cause of the Master in this community. Bro. Frank has done a noble work and made lasting friends of all who heard him. He leaves us to day. We hope to see him again soon.

DANVILLE, BOYLE COUNTY.

—The faculty of Centre College have informed Mr. W. L. Sumrall that he is to be valedictorian of the graduating class for the present year.

—Jo Haas & Co. of this place have for this season bought about 60,000 pounds of wool. Before the season is over their purchases will reach 125,000 or 150,000 pounds.

—The police court is in Louisville this week attending the grand national union republican convention. J. A. Thornburg, of Greensburg, has temporary charge of the telegraph office here, while Mr. and Mrs. L. C. Alcorn are visiting friends at Greensburg.

—The Findlay Tribune, edited by Capt. David A. Murphy, of Findlay, Ohio, finds its way to Danville. There is no reason to doubt that "David A." is the same gentleman who once edited the Danville Tribune in that portion of the Sunny Southland known as Danville, Ky.

—Rev. J. M. Bruce and wife, of Stanford, was in town to-day, (Thursday) May 12. Carrie Fields, of this place, performed wonderful feats as a mind-reader. The Music fraternity are making extensive preparations for the Knights Templar convocation next week. Mr. J. C. Rardin, the new landlord of Gilches's Hotel, is rapidly becoming a favorite with the traveling public, as well as home patrons. Mr. J. C. Cowan (Dud) was in town this week, the guest of his nephew, Dr. J. C. Bogle. Messrs. J. W. and W. T. Guest are attending the races at Louisville. John Masonheimer is recovering from typhoid fever.

—For some months past it has been noticed that very indecent communications, written on postal cards, have been dropped in the Danville postoffice addressed to various young ladies in Danville and other places. The detectives have been working on the matter and Postmaster Marre and Jo Thurman have been before the grand jury of the U. S. Court at Covington. It is understood that Thurman admitted that he had carried several postal cards to the post-office at the instance of another person, but he claimed that he did not know what was written on them. On Wednesday a young man named E. W. Hoover was arrested by deputy sheriff J. M. Bailey on a telegram from the U. S. Marshal at Covington. Hoover is charged with writing the cards. Wednesday night deputy U. S. Marshal R. Wireman came over from Covington and took Hoover back with him on the 5:40 A. M. train.

—A gentleman from an adjoining county who has been an inmate of the insane asylum at Lexington since December last, was in town yesterday on his way home. He claimed that the authorities would have ordered his discharge the day after his arrival, but that he preferred to remain. He spoke of the curious delusions of some of the patients of the different phases of insanity; and what an interesting study insanity is. He said generally speaking that if a patient on his arrival would jump at the doctor and bite him and then stand on his head, he would have a better chance of soon being released if he from that time on ceased such demonstrations, than if he behaved in a perfectly rational manner from the first. He says that he met with a number of persons at the Asylum as sane as anybody. His remarks were keen, pointed and interesting and would look well in print. He contemplates having something to say to the public soon about "Life in a Crazy Shop."

—Louis Faulconer and Sara his wife have been married about four years and have gotten along badly together for three years past. They have spoken only to quarrel for a year or more. Sara keeps a boarding house and makes her own living and Lewis persists in occupying a room in the house which belongs to Sara, but there is no other communication between them. Sara claims that Lewis remains in the house only to torment her and to quarrel with and drive off her boarders in order to prevent her from making a living. John Jackson has been one of the boarders for months past and on Sunday Lewis called him a son of a female dog so often that Jackson knocked him down a couple of times, Louis following Jackson up in order to be knocked down the 21 time. Louis had Jackson arrested and carried before County Judge Lee who fined Jackson \$20. He didn't have the money to pay his fine and is now in the work-house. Louis charges Jackson with being too intimate with Jackson. Jackson says it isn't so; Sara says it isn't so; nobody said so or intimated so on the trial but Louis. Louis is a home nigger; Jackson is a strange nigger, a plasterer by trade and an industrious fellow. He came here from Lawrenceburg and Frankfort. Louis was jealous of Archie Denny a few weeks ago. Sara says his jealousy was unfounded in that case also; so does Archie.

THE new process crude oil and steam burner for cooking stoves is on exhibition here by R. E. Arrington and is a real marvel of ingenuity. With it coal and wood are entirely discarded, the oil and the water furnishing the requisite heat. A meal can be cooked on it at about two cents cost for oil.

A QUITTEN—Bob Logan, negro, was lodged in jail this week charged with committing a rape on Annie Ely, a colored girl of 14. At the trial the girl swore positively that Bob had come to her home in the absence of her parents and after tying her accomplished his purpose, but Logan proved a clear alibi and was discharged by Judge Carson, before whom he was tried.

COMING—Rev. George O. Barnes and daughters leave Poplar, Mississippi, tomorrow and will arrive in Louisville on the 18th, where they will remain until the 22d, when Will C. Barnes will be ordained an Episcopal minister. After that he will go to Georgetown, arriving the 23d and remain till June 4th, when he will go to Dripping Springs; so he writes to Sister Rose Richards.

OUR readers will please excuse the get up of this issue. The editor was called to London to attend the sick bed-side of the business manager and lost a day and night that should have been devoted to the paper. Ed has been very sick, but was somewhat improved yesterday. The proprietor of the Jackson House, Mr. F. B. Riley, where he is confined, is as kind as he can be, and the citizens generally have shown him great attention. We were proud to see him so popular with everyone there. The doctor says he may be able to return to Stanford Saturday if nothing unusual happens.

They have taken an oath not to sell liquor on Sunday nor to minors, nor to men of intemperate habits, and every one of them violates the oath every hour in the day."

Mrs. Susan Sullivan, of Pierce, Mo., has probably accomplished a pedestrian feat which has no parallel. Five years ago the Sullivan family moved to Missouri. Some time ago Mr. Sullivan died, leaving his family positively destitute. Mrs. Sullivan wanted to return to her former home, at Chattanooga, Tenn., and having no money started to walk the entire distance with her five children, the oldest being 16 years of age. She carried a babe a year old all the way and at times would carry the next youngest child, which was sick. She had been on the road for four months and suffered greatly from cold and hunger. The woman was too proud to ask for aid from any one, and says she had rather starve than beg.

The editor of the Arizona Paralyser makes the following personal explanation in a recent issue of his paper: "Yesterday we were again married. It will be remembered that both of our former wives eloped with the foreman of the office. To avoid any future inconvenience of the kind we have this time married a lady who is herself a compositor and she will set the type while we hustle for the ducks who still owe on subscription."

Father—Tommy, you should try and be better boy. You are our only child, and we expect you to be good. Tommy—It ain't my fault that I am your only child. It is tough on me to be good for a lot of brothers and sisters I haven't got.

—The Louisville Committee on Industrial and Commercial Improvement have received a letter from Gov. Knott, accepting the appointment as chairman of the special committee to formulate a plan for a State Industrial and Commercial Convention.

—Senator Lucas, Gov. Wilson's appointee from West Virginia, will contest Judge Faulkner's right to the seat, holding that the Legislature was not authorized to elect a Senator at its extra session. Senator Sherman says Lucas' point is a new one.

—Three brothers—Hunter, William and Charles Hutchens—engaged in a quarrel at Huntsville, Ala., which ended in Hunter's death and the serious wounding of Charles. The killing occurred in the presence of the boys' father, who is a widely known contractor.

—Sherman & Marsh, barbed wire fence manufacturers, of Chicago, have failed. Liabilities \$448,000; assets \$256,000. Schnabel & Co., of Chicago, have also failed with liabilities of \$303,000 and assets \$183,000. They lay their trouble to the interstate commerce bill.

—From January to May 1 there have been constructed in the United States 1,564 miles of new main track on 65 different lines in 29 States and Territories. This has never before been equaled in the same period, except in 1882, when 2,300 miles of new track was reported.

He Could Write.

This is the way he told it at police headquarters the other day:

"Vhell, I vhas in mine place, you know, und a feller comes in und says; 'Mister Blank, I make a bet aboutd you shust now'"

"Vhas dot so?"

"Yee; I make a bet dot you can write your name"

"Of course I can write my name! Does some-poty take me for a fool?"

"Vhell, you put him down on dis piece of paper und I make life dollar."

"Vhell, I write my name on his paper und he goes off und I doan' see him any more. Yesterday I get some notice from a bank dot a note for feefty dollar vhas due. I come down town und finds a note mit my name on der back. It vhas der paper on which I wrote my name."

"Well?"

"Vhell, dot vhas all, except dot I vhas a fool, und if you catch him I gif one hoonered dollar to keep my name outd of der papers."

In his charge to the grand jury, among other things Judge Jackson said in regard to the Louisville mob: "There is no safety outside of the law. One crime can not justify another. A mob has often hung innocent men. What must be the condition of a community where a mob holds rule? Might with a mob is right. Some men who have been egging on the mob by counsel and writing think that because they do not take part they can not be punished. They talk and write like drivelling idiots. They are equally as guilty as the leaders, without the courage to participate. They are accessories before the fact and are equally as guilty, and punishable in like degree and manner as the principals, and had a crime been committed, it would have been the duty of this court so to have punished them."

A Kansas paper, in its joy over the real estate boom which has struck its town, bursts into the following riotous psalm: "Tell me not in mournful numbers that the town is full of gloom, for the man's a crank who slumbers in these bursting days of boom. Life is real, life is earnest, and the grave is not its goal; every dollar that thou turnest helps to make the old town boom. Enjoyment and not sorrow, is our destined end or way; if you have no money, borrow—buy a corner lot each day."

Out in Michigan the female advocates of prohibition are so intolerant that they will not even countenance the wearing of cork-screw curls.—[Boston Post.

NOTES OF CURRENT EVENTS

—Mrs. Ida Anthony, of Plainfield, N. J., has sued Miss Jeannette Ballou for \$50,000 damages for alienating her husband's affections.

—The Richmond & Danyille has taken charge of the East Tennessee, Virginia & Georgia railroad. E. B. Thomas has been appointed general manager, Peyton R. B. Dolph assistant and C. H. Hudson general superintendent.

—Col Bolton, ex-Superintendent of second class matter in the Chicago post-office and a republican, who was convicted of the embezzlement of about \$25,000, has been sentenced to four years' imprisonment in the penitentiary.

—The Chattahoochee railroad has been sold under an order from the United States Circuit Court. It was bought by George C. Wood, representing the purchasing committee of the bondholders, for \$780,000. The road runs from Louisa to Ashland, Ky.

—The rapid growth of tobacco production in Kentucky is shown in the statement that in 1886 the State produced one-third of the total American crop, while in 1860 she produced scarcely one-quarter. The production in Virginia, Missouri and North Carolina has fallen off.

—Never probably in the horse history of Barren were so large a number of first class saddle and harness mares being bred to jack stock. The reasons alleged are the slow sale of horse-colls and the fact that mules are always a ready offering at something like their market value.—[Glasgow News.

—The State Central Committee is now as follows: S. G. Sharp, of Lexington, Chairman; P. P. Johnson, of Lexington; John R. Allen, of Lexington; M. C. Alford, of Lexington; R. S. Bullock, of Lexington; Lawrence Tobin, of Frankfort; W. B. Halteman, of Louisville; Charles R. Long, of Louisville; Alvin Duvall, of Frankfort. The Executive Committee is as before composed of one member from each Congressional district.

—Two railroads were sold in Covington Friday by order of the United States Court. One was the Kentucky & Great Eastern, from Maysville to Newport, consisting mainly of a franchise and nearly a million dollars of indebtedness. It was bought by J. L. Kirkland, of New York, for the bondholders for \$500. The other was the Cincinnati & Southeastern railroad, sold to Henry E. Huntington for \$1,000. The road has 18 miles completed, but the franchise covers 225 miles; its indebtedness is over \$300,000.

SLIGHTLY AMUSING.

Nothing will upset a person quicker than the loose cover of a coal-hole.

Life insurance is described as an arrangement to keep a man poor while he lives, in order to enrich his poor relatives when he dies.

"I am compelled to work for my bread," said a wealthy miller to a ne'er-do-weel who complained of not being able to find bread for his family.

She, with a gentle decadence in her tones: "I can not sing the old song"—He, gleefully: "Let joy be unconfined! That's right, my love, give us something new."

The height of wretchedness was attained by the young man who said, upon receiving the mitten from his girl: "I am so wretched I don't care how my pants fit me."

When the housemaid jams the handle of the broom through the parlor mirror in her efforts to sweep off the marble-topped table she may be said to have made a bad break.

While the funny man cudgels his over-worked brain for that with which to afford his fellow-man a laugh, he hopes that he may be enabled thereby to indulge in a smile himself.

Said one tramp to another: "I'm terrible hungry, pard; les go over the way to the baker's and look at the pies and things." "Excuse me" said the other, "I don't want no hollow mockery in mine!"

The champion pie-biter of the land is a colored individual who recently destroyed the symmetrical outliages of sixteen full-grown pies in twenty minutes, for a prize of a suit of clothes. He was undoubtedly clothed cap-a-pie in the garb of a champion.

A CHEF D'OEUVRE.—"What do you call it, Mrs. Plainsay?" inquired a lady friend, as she examined a recently-purchased painting of a lofty precipice, at the base of which lay the shattered remains of a stage-coach and the bleaching bones of the horses that drew it. "I think," replied Mrs. Plainsay, "that the dealer called it 'shoved over.'"

A LOT of hilarious cow-punchers were overcome by the cunning of a single brakeman on one of the Western roads recently. The long-haired gentlemen were intent upon some bottles of "trantler dew," the contents of which were rendering them unmanageable. A brakeman on the train soon settled their cases by slipping into the bottles, while pretending to drink, some opium, which had the effect of converting the obstreperous bovine gentry into the most quiet and orderly beings imaginable.

A STORY is related of a cute trick by a dog belonging to a farmer. In the doorway a bell was suspended from a post for the purpose of signaling the farm hands. The bell was struck by pulling a rope which hung nearly to the ground. One night, after the family had closed the house and retired, there came a clanging of the bell. The farmer got up to see what caused the disturbance, and on going to the door was joyfully greeted by the house dog that had returned late from a ramble across the fields, and, on finding himself locked out, resorted to the bell as a means of arousing his master

A REPUBLICAN OPINION OF BUCKNER
As the nomination of an ex-Confederate by the democratic convention of Kentucky was inevitable, the nomination of a man like Gen. Buckner is more encouraging than would have been the nomination of a man of less weight and less reputation. It is true that Gen. Buckner was one of the first Kentuckians to organize effective opposition to the general government in 1861. It is also true that he was one of the first Confederates to accept defeat in proper spirit, and it will always be remembered in his favor that when the old chief of the Union armies was on his death-bed Buckner was one of the ex-Confederates who went to the sick room with the hand-clasp of friendship and sympathy. —[Chicago Inter Ocean.

Until the democratic convention assembled in Louisville last week and performed its labors so satisfactorily to the democracy of Kentucky the republicans had some hopes of electing Bill Bradley governor. They hoped that there would be divisions, antagonisms and factions developed among Kentucky democrats, but the convention dispelled it, the Highlanders stood shoulder to shoulder and the thousands of prominent democrats here last week were filled with enthusiasm and went home determined to elect Simon Bolivar Buckner by a majority of 50,000 and they will do it, too —[Louisville Times.

A mute witness of the agony endured by the men entombed alive in the mine at Nansimo, B. C., was discovered Monday. Written in chalk on a shovel picked up by the searchers for the dead were the words: "Thirteen hours and now dying in misery," signed by John Evans, a young man 22 years of age. The men were conscious 13 hours after the explosion and some of them probably longer.

We have received word from the managers that the following well-known speakers among others will be at the Kentucky Chautauqua at Lexington. Rev. Sam P. Jones, W. I. Marshall, of New York, Dr. Milburn, "The Blind Man Eloquent," Mr. Wallace Brush, New York, Prof. R. A. Proctor, the astronomer from England, Mr. J. DeWitt Miller, of Philadelphia, Dr. Wil litta, Mr. F. A. Otter, the Mexican and South American traveler, etc., etc. In addition a great speaker will be present for Temperance Day and a well known Congressman on National Day. The Sunday school work will be conducted by Dr. Wishard, of Danville, Prof. McClintock, of Richmond, Mrs. Harris of Brooklyn, and others. The Secular Normal will be in charge of the State Board of Education. The music will be conducted by Professor Case, of Cleveland, one of Chautauqua's musical directors.

There is a flute in the possession of a gentleman of Atlanta, Ga., that is undoubtedly the oldest instrument of the kind in America. It was made in 1738 and has been handed down through five generations.

The police of Germany photograph criminals in such a manner as to distinctly take the left ear. They say that while the features of the face may change, the ear retains its shape always, and further, no two persons have ears alike.

A LADY, while sitting in her parlor one day recently, was very much startled by a pigeon crashing through her window. The bird, after flying about the room a few times, darted through the hole it had made in its entrance.

Quite a singular wedding took place in the show window of a Chicago house-furnishing establishment recently. It was an advertisement for the store, and the couple were to receive therefor an entire outfit for their new home.

As an evidence that base-ball playing is fast becoming a business instead of a sport in this country, the fact is cited that the annual outlay on it is at least \$2,500,000. It is a good paying business, as some of those engaged in it receive \$5,000 or over yearly.

The horses of a certain fire engine company manifest great intelligence in discriminating between the ring of the bells of a fire alarm and a private telephone. They are all attention at the sound of the former, but are wholly indifferent to the ringing of the latter.

In days long gone a certain professional gambler used to win large sums of money at dice throwing. It was noticed that he invariably used a certain table that was covered with a green cloth. This table became the property of a person who kept it a number of years, until, it becoming worn out, he decided to destroy it. In breaking it up he discovered a small battery inside which had been used to magnetize a steel plate in the top of the table. This revealed the secret of the former owner's success in dice throwing.

A HORSE recently played an important part in a domestic drama in one of our large cities. A gentleman owned a horse which was a favorite of his wife. One day she was out driving, and in passing a neat little house the animal brought up at the gate thereof. The lady urged him on, but the incident prompted her to again pass the place. The horse acted as before, and the lady got out and approached the house. A pretty woman answered her knock and in reply to her question said her name was Mrs. B—, the inquirer's own name. It developed into a case of bigamy and divorce, the author of which was the too-sagacious old horse.

SOME person of leisure has compiled the following estimate of the muscular exertion required in cutting four and a half million feet of lumber: By careful reckoning it is found that the average number of blows required to fell an average tree is about 500, and the average distance traveled by the axe to a blow, twelve feet. Then we have 36,000 trees, by 500 blows to the tree, equals 180,000,000, total number of blows; 18,000,000 by twelve feet, distance traveled by the axe at each blow equals 2,160,000,000 feet, total distance traveled by the axe. Or, in other words, the axe travels 40,369 miles, 2 rods, 15 feet in cutting 36,000 trees, or 4½ million feet of lumber.

What will remove grease spots from clothing in the best manner, is a frequent inquiry. There is probably nothing better than equal parts of strong ammonia water, ether and alcohol. Pass a piece of blotting paper under the grease spot, moisten a sponge first with water to render it "greedy" then with the mixture, and rub with it the spot. In a moment it is dissolved, saponified and absorbed by the sponge and blotter.—[Scientific American

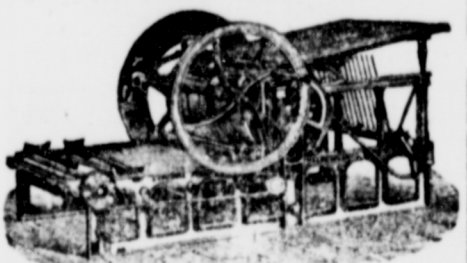

Nebraska has furnished an illustration of the practical value of Arbor Day. In that State of great prairies, on the first of its Arbor Days, 15 years ago, 12,000,000 shoots were planted; now the United States Forest Commission reports that there are fine groves growing 300 miles west of the Mississippi and that 605,000,000 trees are thriving where a few years ago none could be seen save along the streams.

"Can the Missouri river be damned?" asks a Montana exchange. Can it? Ask a Missouri river steamboat captain whether it can be or not. Ask the mate Ask the crew. From the way you talk it will probably be news, to you, but it is nevertheless a fact that there more artistic and 'extensive dams strung along the Missouri river than any other stream in the world.—[Dakota Bell
